

## Lesson 10 Extra Practice transcript

Hi! This is Diana and I'll show you how to do Unit 10 extra practice.

Click Traffic Ticket. Look in the 'Listening Exercises' section and click the arrow to listen to the conversation. I recommend that you listen 2 or 3 times and then after listen again and read the words the people are saying.

When you see words in purple, put your pointer over to see the definition. Move down the page and see the vocabulary. You can see the definition and an example sentence. The definitions are a little difficult so you may want to use your own dictionary.

To practice the vocabulary, there are many exercises. Click to go to the exercise. Read the instructions. For this example, you put the words in the correct order. I'll choose the word with the capital letter to be the first word because a sentence always starts with a capital letter. Drag the words in the correct order on the line. If you're not sure what the next word should be, you can click 'Hint'.

When you're finished, click 'Check' to see if you're correct or if you need to change something.

When you're done, click the 'Back' button on your browser and continue with the next exercise.

When you're finished, click to close this window to return to the LEAD website.

Any questions? Feel free to contact me.

Bye for now!
