

Lesson 8 Extra Practice transcript

Hi this is Diana and I'll show you how to do the unit 8 extra practice.

Click on 'Shopping in the supermarket' and move down the page. Wait for the picture to finish. You'll hear a woman talking to herself getting ready to do some supermarket shopping. You can read the words that she says at the bottom of the picture.

If you're not sure what to do, put your pointer on her hand. So she's talking about an aisle to go down. If you're still not sure, you can put your pointer on her hand again.

She's talking about different sections of the supermarket. Produce was one of them. So for example, click on 'Produce'. You're in the produce aisle so you have to look on her list and choose the food that is produce, that's in the produce aisle. For example, here it's carrots. You click on the carrots. And it's crossed off her list now.

You have to go to a different aisle. Look at her list and look at the aisle signs and decide where you want to go, and click. You finish this exercise when you find all of the items on her grocery list.
