

Hi! This is Diana and I'm going to show you how to find more practice for USALearns. On the web, page put your pointer on USALearns and click More Practice for USALearns.

On this page, move down and you see Second English Course.

In the Second English Course, there are 5 topics. Topic one is Workers in the Workplace, and that's units 1, 2, 3, and 4. The second topic is Housing and Family Life, and that's units 5, 6, 7, and 8, and the other topics are underneath.

Each topic has the same three types of extra practice. I'll show you from the first topic

The first practice is vocabulary. Click, and a document will open with all of the vocabulary from the units in this topic. The first unit is Job and Career Advancement, and you can see the vocabulary, grammar, language, and workplace and life skills for unit 1. Continue down and you can see the same information for Unit 2, Unit 3, and Unit 4. You can use this to study and to test yourself. You can print it out or you can look at it on your device. Close it to return to the web page.

The second resource is the video transcripts. Click to open the document. This has all the words from all the videos from this topic, so unit 1 is job and career advancement, and you can see from the introduction video everything the wizard says, and all of the words from the start up video, and all of the video from unit 1. Keep moving down and you'll see Unit 2, and you'll see all of the words from all of the videos. And again, you can print this or see it on your device. Close it to return to the web page.

The third resource for extra practice is a list of other website for more practice. You can see the unit and the resources for extra practice for that unit. You should read everything before you click because sometimes there are some instructions to explain how to use the website. If the words are in orange, that means that's the link. You click it and the other website for the resource will open up. Click to close it. After is the link to the exercise you can do after the video. Click to open the exercise. You should check the instructions to see how to do the exercise. Click to close it and return to the web page.

This is for the first topic. The same three types of resources are for each topic: the vocabulary, the video transcripts, and the websites.

i hope this is helpful to you. Have fun studying! Bye for now.
